

LOCAL MATTERS.

WEATHER PROBABILITIES.—Aug. 29, 1878. For the Middle Atlantic States partly cloudy weather, occasional rain, variable winds, mostly from northeast to southeast, stationary barometer and temperature.

CONVENTION NOTES.—The political excitement continued last night until a very late hour. The principal subject of the convention was the adjournment of the convention was the committee on credentials, who met in an adjoining room to Sarepta Hall and considered the first ward case. Several witnesses were examined and it was not until about ten o'clock that it was decided to give the delegation to Gen. Hutton. A number of first ward voters were waiting outside and much indignation was expressed at the decision.

An episode of the committee meeting was a motion by Judge Slaughter, of Fairfax, to expel Hugh Latham, of this city, from the room for commenting offensively on the evidence of Mr. Charles DeBornt one of the witnesses. The motion to expel was lost but Mr. Latham was required to apologize, which he did, and the matter was dropped.

The whole of this morning was spent in sessions of the same committee. The action of the committee giving the Calver contested cases to Hutton was announced about eleven o'clock this morning and caused more excitement outside.

Many persons, delegates and others on the streets, freely advocated a halt on the part of the anti-Hutton men on account of the alleged partisanship of the majority of the committee. It is understood that the vote on the question of giving the first ward to Hutton was seven to five, one member (Mr. Riley, of Winchester) declined to vote.

The holding of an indignation meeting in the first ward was mooted on the streets this morning.

Among the hangers-on in a large, earnest upon the Convention, are a large number of Washington sporting men, who are reaping a harvest.

All other business seems to be pretty much at a stand still, and the Convention is the absorbing topic of conversation and interest on all sides.

Many of the delegates, last night, took to a rather large supply of spiritual comfort, and under its influence humorous speeches were made in front of the places of public resort.

The "press gang" from Washington nobly withstood the storm, last night, and remained until the convention adjourned.

It is reported that Mr. J. C. S. Blackburn, of Kentucky, will be in the city to night and will address the convention.

In the case of Madison county, before the Committee on Credentials, it is understood that a compromise was effected by the withdrawal of the Neale delegates.

The Neale delegates from Orange county refused to submit their credentials to the committee, and, if they determine upon a contest, will make it before the convention.

In the Fairfax contested delegations, as in the others, the Hutton delegates are to be reported on favorably.

PERSONAL.—Judge Henry W. Thomas, of Fairfax, was in the city to-day. The many friends of the Judge will be pleased to hear that he is looking well and in his most excellent health.

The Baltimore Sun says: "Rev. W. C. Webb, pastor of Meridian street M. E. Church, Indianapolis, who has been spending his vacation in Baltimore, preached a very able sermon last night at Mount Vernon Place Church. The audience was large, and Mr. Webb entertained them for nearly an hour. He preached on 'perfect love,' and took as his text the words of St. John, 'perfect love casteth out fear.' After the sermon, a delighted audience took farewell of a formerly beloved pastor. Mr. Webb leaves to-morrow morning for Alexandria, Va., where he will remain till next week, (preaching next Sunday morning for Dr. Naylor, at Metropolitan M. E. Church, Washington,) and will then return to his charge at Indianapolis with his young and popular wife." Rev. Mr. Webb reached here to-day and is staying with his father-in-law, Mr. A. C. Harmon. He was warmly welcomed by the members of his former congregation here, and by many other friends.

COUNTY REPUBLICANS.—There was a republican meeting at Arlington on Monday evening, with Benjamin Austin chairman, and Elbert Allen secretary.

The chairman stated the object of the call of the meeting was for the purpose of reorganizing the republican party of the county, and to take action in regard to the fall campaign.

A resolution offered by J. B. Spilax was unanimously adopted "that no support should be given to any person for official positions, whether State or Federal, but such as are in sympathy with the interests of the Commonwealth, and are willing to regard the prosperity of all classes of our people as superior to mere political ambition."

J. B. Spilax, H. L. Holmes and Tibbett Allen were elected to represent the county in a conference.

GRANGE.—The District Grange of Northern Virginia, met at No. 14 Fairfax street, on Tuesday, ascertained, stated, Major P. H. Powers, of Clarke, Master, and A. J. Wedderburn, Secretary.

Three sessions were held during the day and night, but little business of general interest was transacted.

The matter of the Grange Fertilizer Company was fully discussed, and Jas. P. Machen was added as a committee, with H. R. Farr to solicit subscriptions to the capital of the company. A charter has been obtained, and some considerable stock subscribed.

A committee, with power to put in operation a Grange Mutual Insurance Company, was appointed.

There were delegates present representing the counties of Alexandria, Clarke, Jefferson, Fairfax, Loudoun, King George and Madison.

WHIPPING IN THE COUNTY.—Moses Brown, colored, charged with stealing hay from John Knott, near the Long Bridge, whose arrest has been already noticed, was brought before Justice Austin, on Tuesday, and sentenced to 35 lashes. After receiving a part of them he was released on condition of leaving the county at once.

Two white boys from Washington, for stealing one from George Short, were also ordered to be whipped by the same Justice.

The sentence in each case was carried out by Constable Thos. Owens.

OUTRAGES.—A negro named Sam Binaprie attempted to outrage an old lady named Mrs. Catherine Wilson, in Prince George's county, Md., on Saturday. He was arrested and lodged in jail.

An outrage was perpetrated in the same county, on Monday evening, on the person of Miss Alice Sweeney, a highly respectable young lady. Two negroes named Mike Green and John Sprigge have been arrested as the guilty parties, and committed to jail. The young lady lies in a critical condition.

FALL OF A HOUSE.—While a small brick house, in "Black Dog Alley," was being torn down this morning, a portion of the wall fell and caught a young man named Wialen under it. He was speedily gotten out, however, and was at work again in a short time.

LEE SOCIALS.—The moonlight excursion of the Lee Socials takes place to night, to Geisboro, and will, no doubt, prove a most pleasant occasion. Persons unable to leave at an earlier hour, will find the 9 p. m. boat very convenient.

Virginia News.

The Third District Convention yesterday evening nominated General Joseph E. Johnston for Congress. The last ballot stood:—Johnston 51, Culbert John R. Young, 74. At one time the convention threatened to break up. There was some bitterness between the Young and Johnston men, and it was thought that neither would be nominated on this account. Finally the issue was brought down squarely between Young and Johnston, when the Louisa delegation, Wirtson's men, divided, and a sufficient number went over to give Johnston the nomination. Gen. Johnston accepted the nomination, stating that in a few days he would publish a letter giving his views at length.

The Piedmont Virginian says: Mr. John P. Taliaferro, better known as "Farmer John," was struck on the head with a stick in the hands of a fellow patient and killed a few days ago, in the Lunatic Asylum at Williamsburg. Mr. Taliaferro was about eighty years of age, of a fair classical education, but very eccentric. For many years he was a local politician of considerable notoriety. Since the war he has been in indigent circumstances, having been brought down from affluence to abject poverty, which so preyed upon him as to unhinge his mind, hence his removal to the asylum some eighteen months ago.

The widow and two children of the late Edward Lewis, living near Winchester, were poisoned last week by eating stewed apples which they mistook for apple dumplings. The two children died and Mrs. Lewis was very ill.

Among those who were adjudged bankrupts yesterday was John M. Chapman of Orange.

A true bill has been found against H. H. Stratton, of Gordonsville, for killing W. R. Mitchell, of the same place.

Mr. Kearney.

Dennis Kearney arrived in Washington yesterday and called on the President whom he was courteously received and entertained for a few moments in general conversation. Kearney will remain until Friday morning, when he will leave for other points North, and says he will then visit Massachusetts and stump the whole State for Butler. He says he will address the workingmen this evening from the Capital steps.

In his conversation with the President he complained bitterly of the unhappy condition of laboring men in this country. The depression of business and the general hard times were also brought to the attention of the President. The President explained that the country had not yet fully recovered from the effects of the great war, but that matters were beginning to mend, and that he would endeavor to do all in his power to relieve the distressed.

Several years there was an inflated condition of business, with a surplus of money, which many mistook for prosperity, but that now business was getting down to bed rock, so to speak, and that the people were getting to know again the value of the dollar.

He said that he had been broken up between and Butler. On the contrary, I expect to return to Massachusetts and stump all portions of that State for Butler, who is the man of all men in this country that the workingmen should put at the head of their country.

The New York Herald, on Cincinnati says:—Archbishop Purcell was called upon yesterday and the alleged interview between him and Kearney shown to me. After reading it carefully, I thought it was a very good thing that it had been made up, and that it did not hurt anybody would want to eat you very much. Then he spoke to me about the Catholic Telegraph having stated that he was an Orangeman. Of course I was willing if any wrong had been done him by that journal by having it stated that I was not the person to be held accountable for it.

What about that blasphemous remark he made as it was reported in the interview? He made no such remark in my hearing.

What was your impression of Kearney? "I think him a fast mouthed blackguard, and the less notice he is taken of him the better off society will be. He is a forerunner of mischief and can do the cause he professes to represent no good."

What was his manner in addressing you? He carried himself in a very swaggering way, he boasted of having named himself, and seemed very proud of it. He claimed to have been in command of a ship when only 18 years old, and all such stuff as that. I had heard considerable about him from a friend of mine in Boston, and had made up my mind about him. After he left here I wrote to that friend that I had no reason to change my mind from what it had been, namely, that he was a vile blackguard.

There were no threats uttered towards you by him? No; his language was swaggering and unbecomingly, but not threatening. He would scarcely threaten a person of my years no matter what rank or position he held in life.

Then the interview greatly magnified the occurrence, doesn't it? Yes, you can say through the Herald for me that the statement which was sent to the California paper is anything but true, that what little did occur between Kearney and myself has been grossly exaggerated.

The Archbishop was considerably worried apparently over the published account of the coming of his name with the wild utterances of Kearney; but still he knows that it cannot do him any harm, as he (the Archbishop) is too well known, not only in the Catholic Church, but also in the whole Christian world.

Paper Manufacturers. SARATOGA, Aug. 29.—The paper manufacturers to-day adopted the following report, presented by a committee: That the paper manufacturers of the country shall run their machinery but five sixths of the time monthly for six months from the first of October next, it being the intention and agreement that manufacturers shall reduce the production one sixth on each kind of paper which they have formerly made or may make during the time specified, this reduction not to take effect unless manufacturers or parties representing five per cent of the producers of the country agree to the same by September 25th. The committee also recommended the formation of a permanent association of the paper makers of the United States, and that a committee of five be appointed to draft a constitution and by-laws to submit to the convention for approval. The committee of permanent organization appointed in accordance with the report is as follows: A. E. Harding, Ohio; Wm. Whiting, Holyoke; W. S. McJannet, Ohio; George West, Ballston; W. A. Foreign News.

At the session of the International Monetary Conference in Paris yesterday Governor Fenton closed the general debate on the part of the United States. He said the United States expected from the conference if not a decision favorable to the free circulation of silver, at least such an expression of opinion as would enable Americans to hope to obtain later the co-operation which they came to request.

Mr. Leon Say submitted a formula of a reply which a certain number of the delegates desired to make to the American proposals.

The conference nominally closed yesterday. Governor Fenton, in his final speech, urged the importance of an international agreement for the use of silver at a certain ratio with gold. He pointed out that though occasional readjustment of ratio or temporary limitation of mintage might be required, these details could be easily settled. Although the United States were prepared and able to act alone, they felt that international co-operation would facilitate the full use of silver.

The formula of the reply to the American proposals was agreed to by all the European delegates, but with reservations on the part of the Italians. The reply affirms the necessity of maintaining the monetary ratio of silver as well as gold, but recommends that each State be left free to use either or both, and allow or disallow the free mintage of silver.

A Vienna dispatch says General Philippovich has received a communication from the insurgent camp at Tischekovatz, offering submission if very liberal autonomy be granted.—The Gatchekobatz have made similar proposals to General Jovanovich. It is doubtful whether the Austrians will yet consent to treat, but this is regarded as a hopeful sign.

Another account says General Jovanovich rejected the proposals.

LONDON, Aug. 29.—A special dispatch to the Daily Telegraph from Vienna says: All that is known here about General Szapary is that his position is critical. Disaster to him would threaten General Philippovich also.

VIENNA, Aug. 29.—A further mobilization is imminent whereby General Philippovich's corps will be raised to 170,000 or 180,000 men. The transportation of troops and war material over the Southern railway is so great that passengers and goods traffic has been suspended.

Fire. NEWARK, N. J., Aug. 29.—At 2 o'clock a. m. to-day a fire broke out in the oil cloth factory of the Peters' Manufacturing Company, at East Newark, Hudson county, across the Passaic river, from Newark. The town of East Newark has no fire department and word was sent to this city, but the fire department did not respond. The fire had full sway and soon swept away the buildings, consisting of a three story brick factory, engine, boiler and oil houses. Loss \$150,000, of which the owner estimates \$100,000 was in the building and the remainder in stock; insurance \$38,000. The fire throws out of employment 200 hands in the oil cloth factory and 150 at the factory in Newark, where part of the material was made. It broke out in the southeast portion and is believed to have been caused by the explosion of a boiler, but the exact cause is unknown. The buildings were of a most solid structure, the walls being 16 inches thick and the floors of 4 inch boards. Chief Bennett, of the Newark fire department, states that there was no authority to go to the fire. On previous occasions the department has been badly treated by roughs in East Newark, and the men were unwilling to do volunteer work in consequence. There are several factories in East Newark, which may be removed in consequence of a lack of protection from fire.
